

The Breast and Cervical Cancer Control Navigation Program (BC3NP) would like to offer its services to low-income, uninsured, or underinsured clients in your clinic. Our program provides FREE mammograms (2D & 3D), Pap/HPV tests, and diagnostic follow-up to women eligible for our program.

BENEFITS OF PARTNERING WITH BC3NP

- Easy client enrollment into the program
- Payment for office visits and breast/cervical screening/diagnostic services
- No need to enroll your uninsured clients on a sliding fee scale to pay for care
- BC3NP Staff available to assist your staff in providing navigation services for clients requiring breast or cervical diagnostics
- Availability of special Medicaid program through BC3NP that provides full coverage (including cancer treatment) for eligible clients not currently eligible for Medicaid.

It's easy to become a partner with our program.

Call (517) 512-4140 or email us at BC3NP@michigan.gov for more information.
